the subcontractor were obtainable from other sources in sufficient time to permit the Vendor to meet the required
delivery scheduled. The rights of the State provided in this paragraph shall not be exclusive and are in addition to any
other rights now being provided by law or under this order.

Specifications:

Establish a Statewide Price Agreement for the collection and processing of recyclables.

The term of this Price Agreement shall be for one (1) year from date of award with the option to extend for a period of three (3) additional years, on a year-to-year basis, by mutual agreement of all parties and approval of the New Mexico State Purchasing Agent at the same price, terms and conditions. This Price Agreement shall not exceed four (4) years.

Escalation / Reduction Clause:

In the event of a product cost increase an escalation request will be reviewed by this office on an individual basis. Please be aware this measure is not intended to allow any increase in profit margin, only to compensate for an actual cost increase. Price decreases as well as increases shall apply. If vendor's prices are reduced for any reason, users shall receive the benefit of such reductions. Price increases will not be retroactive to orders already in house or backorders. Orders will be filled at the price in effect on the date of receipt of the order by the vendor.

Vendors are encouraged to also propose collection services for any or all of the commodities identified.

*Institute of Scrap Recycling Industries (ISRI) specifications are provided below as guidelines for the targeted recyclable Material: In-house resources & historic information

Most State agencies currently participating in office paper recycling have 50 or 90 gallon wheeled carts provided by the contractor. Historical data reflects in Santa Fe there are approximately sixty 50 gallon receptacles being pulled biweekly. Approximately eight locations save recyclables only in cardboard boxes, while at least four locations produce fairly high volumes of shredded paper. In Albuquerque, there are approximately five bins being pulled weekly, forty-two being pulled biweekly and ten being pulled monthly.

The desired collection system will include 50 and 90 gallon rolling carts provided by contractor(s) for building collection of office paper grades. This will be a continuation of the 50 gallon cart system provided by the previous contractor in several buildings.

In order to facilitate and expand the recovered quantities and range of additional materials, such as corrugated cardboard, vendors are encourage to propose alternative collection methods and plans in cases where carts might not be practicable.

Education:

Vendors may submit with their respective bid a description of any educational efforts they propose to undertake, including providing a list of acceptable papers to be posted by recycling bins, willingness to participate in informal meetings, promotional materials or any other means that would help to increase the amount of material collected. Vendors are encouraged to also describe how ongoing additional education will be performed after the initial start-up has been completed. Vendors are encouraged to include samples of start-up and educational materials with their bid.

Reporting:

Contractor must agree to provide monthly collection reports that include the list of collection points, frequency of pickups and units collected identified in accordance with agreed upon unit of cost/payment. The same type of reports must be furnished to any local government participating in the contract.

Cost/Payment:

This invitation to bid is issued with the intent to enter into a Price Agreement with a contractor or contractors that will pay entities within the State of New Mexico a fair market price, or rebate, for the identified recyclable commodities. The State of New Mexico recognized that available markets in which to see recyclable commodities are cyclical, but that global forces are supporting a general market trend.
Accordingly, potential contracts(s) are invited to propose a floor price per collection bin to be paid to the State, and to propose a 'profit-sharing' arrangement whereby an additional rebate above the floor price may be paid to the State if markets rise above specified price levels.

With the above in mind, vendors must clearly identify in the space provided in this invitation to bid any costs to the State associated with their proposed offer, the floor price they will pay the State for recyclable commodities and any additional rebate payments being offered for collected material. Vendors are requested to submit for consideration a proposed plan that will address possible ups and downs in the cost and/or payments that are the result of market variations for recyclable commodities. Weekly or bi-weekly costs and/or payments must be on a unit price basis per stop. Vendors must indicate the kinds of records proposed that will facilitate monitoring of the program. Vendors may address disposal costs savings that can be achieved through waste reduction, if applicable. Any costs and/or payments must be handled with the participating entity.
