

**GENERAL SERVICES DEPARTMENT
RISK MANAGEMENT DIVISION
2024 ANNUAL REPORT**

**THE HONORABLE MICHELLE LUJAN GRISHAM
GOVERNOR**

**JEANNETTE CHAVEZ
DIRECTOR
RISK MANAGEMENT DIVISION**

**SUBMITTED TO
THE NEW MEXICO STATE LEGISLATURE
DECEMBER 15, 2024**

Executive Summary

The Risk Management Division (“RMD”) was established to meet critical needs for public entities in the State of New Mexico. *See* RMD’s organic statute, NMSA 1978, §15-7-1 *et seq.*

RMD is responsible for self-insured administration and procurement of insurance to protect the Public Liability Fund (*see* § 41-4-23), the Workers’ Compensation Retention Fund (*see* § 15-7-6), and the Public Property Reserve Fund (*see* § 13-5-1). Section 51-1-15 charges RMD with administering the State Government Unemployment Compensation Reserve Fund and the Local Public Body Unemployment Compensation Reserve Fund. As part of this responsibility, RMD works to limit the cost of excess insurance, so agency risks are truly “self-insured” and rates relate more directly to actual losses incurred.

Separate units within RMD, known as Bureaus, carry out the division’s diverse functions. The following narrative describes the operations of each individual RMD Bureau and accomplishments in 2024.

This report also includes Property and Casualty Liability claim numbers for calendar year 2024.

The Risk Management Division has struggled with escalating claim costs and changes to laws affecting Civil Rights awards. We are thoughtfully addressing these issues by examining State Agency loss trends and claim settlement amounts. We are evaluating our State Agency cost assessments and are considering changes to our agency premium base. We are also increasing loss prevention measures to further assist State agencies, and, utilizing our Alternative Dispute Resolution Bureau as effectively as possible.

We look forward to a productive, and dynamic, 2025.

Legal Bureau

The Legal Bureau provides executive strategic management over all civil cases covered by the liability fund that are in active litigation. Such litigation includes State and Federal Civil Rights Claims, Employment Claims, Medical Liability, Tort Claims, Inspection of Public Records Act Claims, and Ethics Commission Complaints involving great bodily harm, Child Abuse, and Wrongful Death.

The Legal Bureau supervises forty-four contracted civil defense firms located throughout the State. The Legal Bureau is responsible for all major decisions during litigation including trial tactics, motions and appellate practice, and final determinations on taking cases to trial or reaching settlement. The Legal Bureau provides specialized expertise in settlement negotiations and mediations with the aim of reaching the best possible settlement outcomes in cases determined to be appropriate for settlement.

In 2022, the Legal Bureau was proud to have managed the litigation team, while working closely with DOH, that finally resolved the Jackson et al., Consent Decree Case after 35 years. The strategies and analytics employed in that case are being used to develop new approaches and outside the box thinking to approach other high liability matters.

The Legal Bureau has implemented new performance standards for contract defense counsel and is spearheading the push to take defensible cases to trial, developing trial practice skills, and flagging the legal issues to challenge on appeal.

The Legal Bureau is an effective team of attorneys and law clerks with diverse backgrounds and skillsets. The Legal Bureau has been expanded. Additional attorneys, and a second Legal Bureau Manager, have been added. The Legal Bureau will be fully staffed going into 2025.

Finance Bureau

The Finance Bureau supports all Risk Management Divisions (RMD) by centralizing the Division's financial functions, providing accountability, and ensuring timely processing of financial transactions. The Bureau manages budget preparation, financial reporting, encumbrances, accounts receivable, accounts payable, and contract administration. The Bureau played an integral part in the FY24 transfer of the Employee Health Benefits bureau to the newly formed Health Care Authority.

The Finance Bureau also serves one of RMD's key functions – administering and tracking seven risk funds. Fund solvency has been an ongoing concern and continues to be for several RMD funds to include public liability. The bureau is responsible for managing legal, worker's compensation, alternative dispute resolution and property & casualty contracts and RFP's. The bureau manages the AR, AP and budget responsibilities for the division.

The Finance Bureau (Bureau) accomplishments for 2024 include being the primary contact and coordinator of the transition of the Employee Benefits Bureau to the newly established Health Care Authority (HCA) of the State of New Mexico. The Finance Bureau provided the FY25 budget to the HCA for the State Health Benefits submission. The Finance Bureau Chief transferred eleven contracts to the HCA to maintain health insurance coverage for all covered state and local public body employees and their dependents. The Finance Bureau issued two legal RFP's in FY24. The second RFP increased hourly rates for contract attorneys which was needed to attract and retain counsel. The bureau also posted a total of six RFP's in FY24 to include Worker's Compensation third party administrator (TPA) and pharmaceutical benefits manager, insurance broker, unemployment TPA and legal services. The bureau also contracted with several Alternative Dispute Resolution suppliers for training support. The Bureau continues to review and improve streamlining its processes and automating wherever possible.

Alternative Dispute Resolution and Loss Prevention Bureau

The Alternative Dispute Resolution (ADR)/Loss Prevention Bureau promotes and offers dispute resolution and loss prevention services to help agencies prevent

workplace conflict and workplace incidents. Historically, the goal of the bureau was to provide mediation to state employees, certify new mediators, provide training for veteran mediators, and offer various trainings to state employees.

In fiscal year (FY)24, the bureau laid the groundwork to expand its services to state agencies. Rebranding focused on who our customers were, state employees. By recognizing that the bureau is designed to support employees experiencing workplace issues ranging from one-on-one conflict, large group conflict, and challenges with workspace we recognized the need to provide intensive marketing and outreach.

Restorative practices have been key in bringing self-development and reflection to large team dynamics. By following up with additional training in a three or four-tier approach we hope to achieve a solid base for agencies. Trainings are now agency specific and designed based on agency need for services.

The bureau was mindful to keep the old structure while incorporating new programs and provided the following in FY24:

Trainings

FY 24:

- **New training** - GSD Road Show: Training designed for custodians/maintenance employees in both English and Spanish. Program Overview May 16th and 17th in Santa Fe (2 half day trainings). Designed to reach state employees who do not have access to technology on a daily basis.
- **New training** - Several ADR Coordinator trainings, Essentials for Effective Communication (Trujillo)
- **New training** - Sensory Styles (online June 5th by Oliver)
- **New training** - Ergo Assessor Training (in person February 27th by Montoya)
- **New training** - Lunch and Learn conversations with Eleanor Bravo (online April 23rd) and Kathleen Oweegon (online August 10th)
- **New training** - Mediator 2-Day Refresher and 2-Hour Tune-Up for Mediators (Olson)
- 40-Hour Mediation Certification Class (1 full 5day session in person on June 24th-28th in Albuquerque)
- Manager as Coach (Olson)
- Communicating Using Effective Questions (in person and online), Beyond the Surface—Listening with Empathy (in person and online), Heart of the Matter (in person and online), Professional Email Communication (online) (Burgin). I do not believe she ever delivered the Difficult Conversations training to an audience either in person or online.

- Multiple trainings by TNET

Outreach FY24 (All new approaches)

- One on one calls with mediators, alternative dispute resolution and loss prevention coordinators
- Created quarterly calls with all groups resulting in greater outreach and collaboration with all stakeholders
- Cold calls – compiled three years of data and launched calls to agencies who reached out to bureau for services. Resulted in new services for agencies.
- In person trainings agency and region specific.

FY24 Mediations:

- *26 total with 7 in person (Albuquerque and Santa Fe) and 19 online and 8 resulting in no agreement, 3 resulting in a written agreement and 15 resulting in a verbal agreement
- Served two county agencies (Taos & Valencia), multiple court agencies (AOC, 5th JDA, 2nd JDC, 5th JDC, 11th JDC, 12th JDC), and numerous state agencies (NMCD, DOT, OSI, DVR, ALTSD, DOH, OSE, EMRND, DWS, RLD, PERA, DCA, PRC, TAX, and OBAE)
- Restorative Practice Group Facilitation requests for FY24:
 - General services Department

Looking ahead:

New trainers FY25

- The bureau has moved to a preventative based model
- Realization that while mediation is a good tool, work needs to be done on the preventative side
- Restorative practice that focuses on large teams in the workplace affected by the main individuals in conflict
- Facilitators will work together with the bureau on preventative trainings to give all employees new tools in working through conflict based situations

New Training(s) FY25

- Train facilitators in restorative practices – training sessions commenced July 2024
- Higher Education Trainings for Student Athletes/Athletic Personnel.

- Opportunity/responsibility on campus and as a community figure.
 - Impact of wrongful behavior to include legal, social, educational, personal and professional impact.
- Agency specific trainings based on high-risk agency issues.
 - Left/right side brain adrenal gland responses
 - Communication skills
 - Cultural competency
 - Sensitivity in the workplace
 - Effective listening
 - Value of open-ended questions
 - Forgiveness
 - Mindfulness
 - Impulsivity
 - Trauma response and triggers
 - Self-sabotaging behaviors
 - Managing emotional response
 - Frustration, anxiety, fear, anger, self-awareness, etc.
 - Problem-solving tips and common ground.
- Creating Restorative and Productive Workplaces
- Dispute resolution workshops
- Improving communication with sensory styles
- Weaving the Social Fabric: Agreements & Trust
- The pitfalls of dirty bargaining
- 10 Most Common Causes of Conflict in the Workplace
- Mental health coping mechanisms
- Understanding aspects and stages of conflict (triangulation)
- Restorative justice modeled intervention (restorative practices to heal employee teams)
- Recognizing personal learning and sensory styles
- Basic training on what the ADR and loss prevention bureaus can do for employees and agencies

Expansion of staff

- Two new program coordinator II positions to cover different areas of the state
 - Northwest and northeast
 - Southeast and Southwest
- Current staff will cover the north central and central regions of the state

Urgency for new hires

- Employees outside of Santa Fe and Albuquerque are unaware of the benefit of the ADR and loss prevention programs
- Outreach is key in making outlying district and satellite offices aware of our services
- Intervention methods to include mediation and trainings have not been easily accessible
- New hires and current staff will conduct in person trainings either agency specific or based on areas of the state
- Trainings are designed to be preventative based and are not only for supervisors and managers
- Recruit new volunteers to our program from across the state who are interested in volunteering as mediators or restorative practice facilitators

The ADR Bureau is the first line of defense to help mitigate workplace conflict. The goal of creating an environment where peers can work together on the overall missions of their agencies drives the need for the bureau to be flexible to the needs of the evolving workplace culture.

Workers' Compensation Management

RMD made changes to RMD's Worker's Compensation Bureau (WCB) in 2024. The bureau has been dissolved. All eligible workers compensation injuries are now being professionally handled by a Third-Party Administrator (TPA).

RMD's worker's compensation standards have not changed. We continue to fulfill RMD's statutory obligation to administer and monitor the Workers' Compensation Retention Fund and effect prompt and fair payment of workers compensation claims brought by state employees and employees of covered educational entities or local public bodies in accordance with the Workers Compensation Act, *see* NMSA 1978 §§ 51-1-1 *et seq.*, 15-7-6, and 52-1-3. WCB provides thorough and efficient claims administration of workers' compensation claims. WCB continues to contract services from case managers, investigators, and attorneys to meet the Workers' Compensation Act's statutory obligations, while also protecting the solvency of the Workers Compensation Retention Fund. The State is obligated to pay for all reasonable, necessary, and causally related medical care from alleged occupational injuries occurring during the course and scope of employment and provides an early return to work program that can reduce the average number of weeks a worker is absent because of an injury and can potentially increase employer savings. Modified work allows the workers to return to work with the same employer.

The WCA has its own administrative court to resolve disputed cases through its Adjudication Bureau. A complaint can be filed at any time for a variety of reasons and initiates the dispute resolution process. A mediation hearing is scheduled for all involved parties. Most worker's compensation disputes are resolved through mediation. Per statute, attorney's fees for both sides are capped at \$22,500.

Property and Casualty Bureau (PAC)

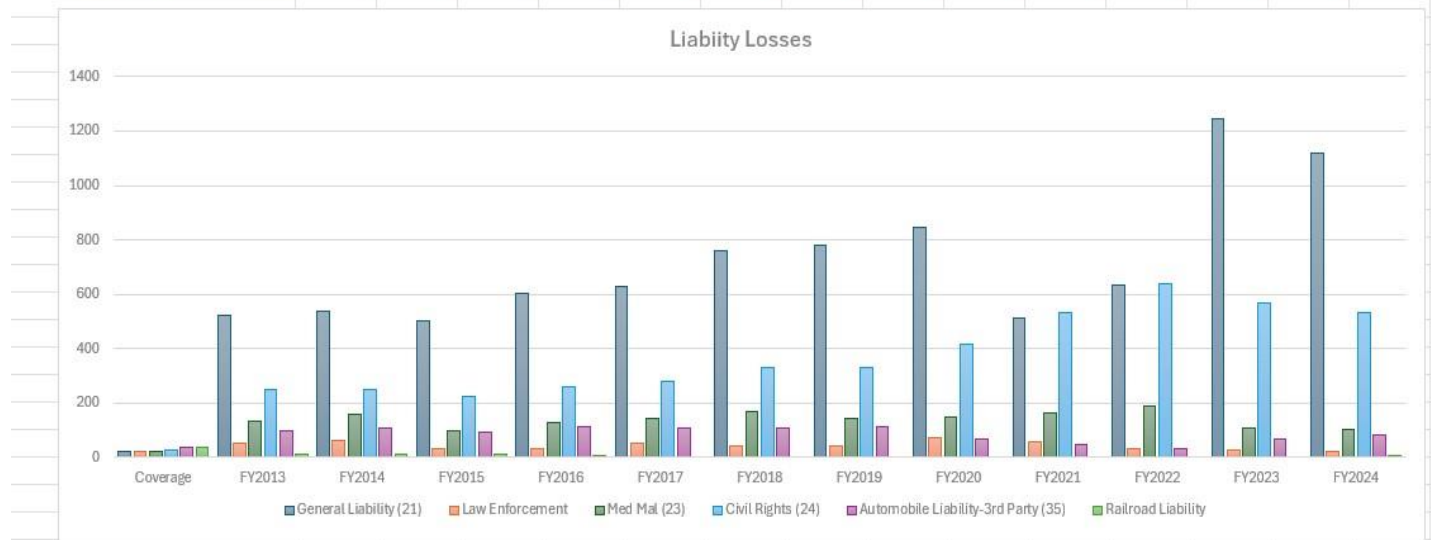

The PAC Bureau has a professional team of New Mexico licensed adjusters responsible for claim administration while working directly with agencies, claimants, insurers, and attorneys. This work includes losses involving vehicular damage, property damage, general liability, auto liability and other high frequency claims not

anticipated to involve prolonged litigation. The PAC Bureau is tasked with evaluating and adjusting such claims and making liability and property payments in accordance with the Letter of Administration, coverage documents and the Tort Claims Act, NMSA 1978, § 41-4-1 through 41-4-30.

In addition to liability payments, the PAC Bureau is also responsible for administering claims against the Public Property Reserve Fund, which protects “public buildings” of state agencies against loss or damage from fire, windstorm, hail, smoke, explosion, riot, flood, or civil commotion as required by § 13-5-1. Section 13-1-5(B).

Loss Trends: Chart below reflects the number of claims filed for each claim type by fiscal year:

Statutory Claim Payment Disclosure

Each year, RMD discloses indemnity payments over \$1,000.00 issued from the Public Liability Fund in its Annual Report per NMSA §15-7-3 (C). Since this report is a public document, RMD must comply with the confidentiality provisions of NMSA § 15-7-9 when disclosing claims payments data. This statute protects fund solvency while still allowing for transparent reporting of the use of taxpayer dollars.

Under NMSA §15-7-9, information about a claim may be released after a statutorily specified date of disclosure on and after:

- (a) the date a final judgment is issued resolving the claim and all appeals and rights to appeal have been exhausted; or
- (b) the date a settlement agreement is signed by all the parties.

In compiling this disclosure, RMD completed a thorough database search of all claims paid in Fiscal Year 2024 in accordance with NMSA §§ 15-7-9(A)(2)(c) and 15-7-9(A)(2)(d).

<u>Date</u>	<u>Claimant</u>	<u>Agency</u>	<u>Loss Type</u>	<u>Settlement</u>
7/3/2023	Asia Yazzie	Department of Transportation	General liability	\$1,329.65
