4. Update on Interagency Benefits Advisory Committee (IBAC) Procurement and Local Public Bodies Participation in the Procurement

Mr. Tyndall explained the changes with the IPPC. Secretary Ortiz has retired and Therese Trujillo will also be leaving. Mr. Tyndall will also be taking another job and this will be his last meeting.

Mr. Tyndall gave a brief update about the IBAC. They are working on the RFP for the PBN services. They should have a draft of the RFP soon.

5. Payer Subcommittee Work Progress

Purchaser Subcommittee Work Progress

Mr. Tyndall asked for volunteers for the payer subcommittee. The update is the same as the IBAC.

They have had a few discussions to look at the other PBM contracts. Mr. Tyndall thanked the members of IPPC for their work.

Mr. Asonganyi updated the Commission on the work of the purchasers subcommittee. There were some entities not included. There were contracts from the County and Corrections Department. What was apparent was that they wanted to try have one large group to contract and have cost savings. Each entity varies and their statutory obligations are all different. It was challenging to meet all the needs. They may need input from each agency. It could lead to a few agencies moving forward.

Mr. Asonganyi stated it was interesting and they got viable information for the next steps.

Ms. Trujillo mentioned that a letter went out to the IBAC Committee to ask for participation. Mr. Tyndall explained that he reached out to the IBAC and LPB's asking for participation in the RFP. He is hopeful there will be engagement.

6. Update on Senate Bill 1: Wholesale Prescription Drug Importation Act

Dr. Massaro explained there has been activity in the courts. After the change in administration, Pharma did not know how strong the response would be in drug importation. Pharma revised their challenge in July. They are now waiting on President Biden to appoint a new FDA Director. There are seven states that submitted they would like to participate. Florida proposed an importation that substituted Medicaid expansion. Two other states remain optimistic to continue.

7. PUBLIC COMMENT

There were no public comments.
