## **Relationships First**

Everything starts & ends with the relationship, human beings need each other, our nature is inter dependence - profound connectedness, and we really need to pay attention to how we connect with each other

The quality of the relationship will determine the quality of the work that we do together

Every interaction with others offers a way to connect in this profound time of disconnection

## **Love and Fear / Michael Leunig**

There are only two feelings, Love and fear:  
There are only two languages, Love and fear:  
There are only two activities, Love and fear:  
There are only two motives, two procedures,  
two frameworks, two results,

Love and fear,

Love and fear.
