

How can the Office of MPR Help?

We are a state Risk Management program that works with state employees and their agencies to access services to increase safety in the workplace. Safety is our goal, whether through detecting hazards or through improving communication.

Mitigation, Prevention & Resolution:

The Office of MPR offers safety and communication-based trainings, restorative practices, workplace mediation and resources for mitigation, prevention and resolution of workplace injuries and conflict. Our goal is to be an early resource to restore harmony and create positive collaboration in the workplace.

Restorative Practice & Mediation

The Office of MPR helps mitigate, prevent and resolve workplace disputes in a fair, and cost efficient manner.

Autonomy, self-determination, de-escalation, and problem solving are the emphasis of our program.

We encourage managers and employees to take a forward-looking approach to resolving workplace conflict.

Services through our program are voluntary, confidential, informal and **NO COST** to the employee.

Call us! We can help get you in contact your Agency's Coordinators.

“Prevent Loss, Secure the Future!”

The Office of MPR aims to encourage safety, detect workplace hazards and remove them or prevent them from occurring in the first place.

Safety in the workplace can help in reducing stress and minimizing the cost of damages.

We can help with:

- Resources & Trainings
- Assessments & Ergonomics
- Developing Safety and Evacuation Procedures
- Minimizing or preventing injuries of people and damages to property
