

**\*\*COMING - SUMMER of 2026\*\***

Dear Valued Supplier,

State Purchasing Division is preparing to modernize how we do business with our supplier community.

The current vendor supplier electronic portal, eProNM, will be replaced with a new, modern procurement platform in the summer of 2026. This new system is designed to make doing business with the State easier, faster, and more efficient for both suppliers and State Purchasing Division staff.

Once the new supplier portal is live, all suppliers will be **required** to register and create a new account in the new system in order to continue doing business with the State. Existing accounts and information from the current portal will not carry over.

We will share additional information in the coming months, including key dates, registration instructions, and support resources to help ensure a smooth transition.

Please check our website regularly, <https://www.generalservices.state.nm.us/state-purchasing/> for updates and watch for future communications related to the upcoming procurement platform.

We appreciate your partnership and look forward to working with you through this transition.

Sincerely,

State Purchasing Division  
General Services Department
